comfortable living...all year long

fleetline RESIDENTIAL HOT WATER BOILERS
You’ll appreciate a Fleetline Home Comfort System no matter what time of year! If you’ve never considered heating your home with hot water before, now is the time to take a serious look.

Aside from offering a comfortable, healthy environment in your home, there are many advantages to heating with hot water. The abundant supply of hot water means you do not need a separate water tank for dishes, showers and laundry. While providing the main source for heating your home, Fleetline hot water boilers also give you options such as in-floor radiant heat, snow melt systems, pool heating and more.

Before you get out that blanket on a cold wintery day, run out of hot water in the shower or find your feet getting cold, talk to us about an economical Fleetline Home Heating System.
Fleetline boilers have earned a reputation for being reliable, economical and efficient from thousands of satisfied customers coast to coast.

- Continuous economical hot water for your family’s needs from our internal water heater/tankless coil
- Internal stainless steel baffles for maximum heat transfer & efficiency
- Triple aquastat for energy conservation on ALL our boilers
- Meets A.F.U.E. standards
- Reliable production quality control and innovative features
- Excellent for new homes, retrofit or replacement
- Multi-firing range provides flexibility of the boiler’s output
- Fuel choices: fuel oil, natural gas or propane
- Heating your home with hot water can provide a healthier environment for the entire family
- Ceramic fibre fire chamber for better and more environmentally friendly combustion
- Up to 89% combustion efficiency
- Easily serviced
- All controls are conveniently located on the boiler
- Internal water baffling to ensure even flow through the entire boiler, for better efficiency
- Small footprint means it fits in very small spaces
Brant Steel Products, the manufacturer of the FLEETLINE BOILER, is part of the eKOCOMFORT™ group of manufacturers responsible for the design and production of the Canadian Government recognized 'Integrated Home Comfort System'.
